The attention of all is called to the statistics of the schools given in the preceding table. It will be noted that the number of pupils in town has fallen off somewhat since the preceding year. The per cent. of attendance has improved, but the number of tardinesses has increased. The number of instances of tardiness in the third and fourth grades at Milton Village is excessive and shows lack of co-operation on

the part of some parents to make the work of the schools more efficient. I again appeal to the parents to give their assistance to the teachers in trying to overcome this evil, for an evil it certainly is. I note with satisfaction that the number of instances of tardiness has greatly decreased in the schools at Milton Mills.

All the schools were in session for the full year of 36 weeks.

### **Roll of Perfect Attendance**

The following pupils are to be credited with perfect attendance for the time indicated:

#### **ONE TERM**

Bernard Paey, James Regan, Harold Carpenter, Carlyne Dickson, Carrie Nickerson, Hazel Mattress, Flora Wentworth, Rita Piper, Alden Day, Nelson Willey, Edwin Thompson, Clyde Welch, Leslie Chase, Elmer Dixon, Margaretta Bickford, Eglantine Preble, Enaise St. John, Emily Columbus, Elizabeth Harmon, Helen Kempford, Charles Kempford, Vida Preble, Raynard Whitehouse, Donald Philibert, Phyllis Wilson, Ralph Huse.

#### **TWO TERMS**

Hazel Bliss, Austin Day, Marion Day, Horace Chase, Bernard Pinkham, Wayne Dixon, Wilbur Lover, Reginald Nutter, Angelina Baron.

#### **FULL YEAR**

Arnold George, Evelyn Paey, Bard Plummer.

The table of statistics also shows a considerable number of changes in the corps of teachers. Of the ten teachers employed for the year 1920-1921, five were new to their respective schools. This year, I am pleased to say, we have been more fortunate in this respect. Eight teachers of last year are still with us, and only two vacancies were to be filled.

## HEALTH WORK

By special arrangement with the Red Cross the school children were examined by Miss Elinor Gregg, a registered nurse in the employ of the Red Cross. This work was done during the summer and early fall. When a child was found to be defective in some respect, this fact was made known to the parents either by a written notice or by a personal visit by Miss Gregg.

The report of the nurse shows the following details:

No. of children examined	225
No. of visits to homes	158
No. of children found underweight	40
No. of children found considerably overweight	4
No. of children found with malnutrition	4
No. of children found with defective vision	55
No. of children found with defective hearing	5
No. of children found with defective teeth	163
No. of children found with adenoids	43
No. of children found with diseased tonsils	100

As a result of the examinations and the follow-up work done by the nurse, the report shows that 15 children were operated upon for adenoids and diseased tonsils, 17 received treatment for defective vision, and a considerable number received dental treatment.

When we consider that among our school children there were found 207 cases of malnutrition, defective vision, defective hearing, adenoids and diseased tonsils, without mentioning the large number of instances of decayed teeth, it is very evident that there is much health work which should be done in the schools. The work done last summer was a good beginning. Some good results have been secured, and a few children have been put into physical condition to get more out

of school and out of life. Can we not greatly increase the results next year.

I am pleased to learn that there is a good prospect that arrangements may be made in the near future whereby we shall have the services of a resident nurse in the schools. If this arrangement is made, I believe that it will do much toward improving the health of the children and raising the standard of our schools.

Respectfully submitted,

FRED W. DUDLEY,  
Superintendent of Schools.
